

Rae Deslich- Set Decorator

Fellow SDSA members: first of all, thank you for voting in this election, and playing a crucial role in the governance of our organization!

I would be honored to serve a second term on the SDSA Board of Directors. I think the SDSA is an incredibly important organization. It's the only professional organization dedicated solely to Set Decoration, ensuring that our achievements and our needs don't get buried under the general title of "art department". It's a place for us to have fellowship and community-building, separate from the formal restrictions of our

union. And it's a place for us to bond and share support with people who aren't Set Decorators, but a crucial part of the Set Dec world- such as Business, Associate, and Student members.

Before joining the Board, I was active in the SDSA Community Outreach Committee and helped put on several of the Art Auctions to raise funds for worthwhile causes. Upon being seated as a Board member in January 2024, I immediately brought to life a project I wanted to do for years- bringing Set Decorators to fan conventions such as San Diego Comic Con. With the SDSA's support, and along with a team of three other SDSA Set Decorators, we have put on seven panels at three different conventions and even ran a booth at LA Comic Con, educating the public about the immense work a Set Decorator does and our importance to the television and filmmaking process.

I have also spearheaded for two years now an SDSA booth at the Property Masters' Guild event, the annual Liftgate Tailgate. I believe it is important to establish fellowship with other organizations within our industry.

I am very excited to serve again on the SDSA Board of Directors. Please vote for me, and please also vote for many of these other fantastic SDSA members who are keeping the organization alive, active, and relevant!
