Eligibility Rules

The SDSA will consider the Academy of Motion Picture Arts and Sciences (AMPAS) guidelines to determine eligibility.

- 1. To be eligible for the 2021 SDSA Awards, a feature-length motion picture must be a minimum of 40 minutes and released either through public theater exhibition, commercial streaming, internet transmission, video demand or other broadcast service, as determined by the AMPAS requirements.
- 2. The qualifying films are those intended for theatrical release—Covid-precipitated streaming releases as recognized by AMPAS also qualify—from the period of March 1, 2021 to December 31,2021.
- 3. The SDSA list of eligible feature films is based on the AMPAS reminder list. The SDSA list of qualifying films will be sent via email to SDSA members in December 2021.
- 4. Voting is open to all SDSA Set Decorator Members, Retired Set Decorators, Associate Members and Business Members (One vote per member) via online voting portal.
- *Due to the COVID-19 global pandemic, the rules, dates, eligibility and voting practices noted here will apply specifically to the foreshortened 2021 awards season.

A note on Category eligibility: In the Best Picture Category, all feature-length films on the AMPAS list will qualify – including International, Documentary, and Animated Features.

In the Decor/Design Categories (see below), only films that have been pre-sorted into genre categories by the committee are eligible for awards in their respective categories. The Decor/Design Categories will exclude from consideration Documentary and Animated Features. Films must have a credited Set Decorator to be eligible for SDSA Awards consideration.

The Outstanding Achievement for a Feature Film will be awarded in the following categories:

BEST PICTURE

BEST ACHIEVEMENT IN DECOR/DESIGN OF A CONTEMPORARY FEATURE FILM
BEST ACHIEVEMENT IN DECOR/DESIGN OF A PERIOD FEATURE FILM
BEST ACHIEVEMENT IN DECOR/DESIGN OF A FANTASY/SCIENCE FICTION FEATURE FILM
BEST ACHIEVEMENT IN DECOR/DESIGN OF A MUSICAL/COMEDY FEATURE FILM

Category Definitions

To assist SDSA voting members in casting their votes, the SDSA Awards Committee offers the following to define each category:

CONTEMPORARY - Films whose primary setting is situated in the approximate current day (or decade). These films may include brief flashes back or forward in time, but the bulk of the story must be a contemporary setting.

PERIOD - Films whose settings are primarily in historical eras that precede our current day. These films may have time spans that include current day, but the bulk of the story must be situated in a bygone era.

FANTASY/ SCIENCE FICTION - Films whose stories are situated in realms of the imagination. These stories may be extra-terrestrial, futuristic depictions of earthly civilizations, or dramatically heightened versions of a known universe. The science fiction genre will typically feature advanced, as-yet unknown, or dramatically enhanced technologies.

MUSICAL/ COMEDY - The Musical genre will include films whose stories are interspersed and advanced with production numbers which include singing and dancing. The Comedy genre consists of films whose stories are designed primarily to make an audience laugh.
